

King's College London

Digital Economies MSc

Online study | Part time

PROGRAMME OVERVIEW

Explore how digital technologies transform economies, business, work and society. Develop critical and theoretical perspectives on digital economies alongside research and analytical skills.

STUDY AREAS

- Digital economies, platforms and business models
- Digital technologies, work, culture and society
- Digital innovation and strategic analysis
- Research and analysis of opportunities and risks

ENTRY & STUDY ARRANGEMENTS

Confirm eligibility, English proficiency, duration and fees against the latest official information for this specific online programme. On-campus digital economy programmes have separate arrangements.

Historical course documents can provide background on macro and micro digital economies and research. Their module lists, dates and fees should not be treated as current admissions terms.

FEES & NEXT STEPS

Ask UKEC to confirm current tuition, currency, payment stages, additional costs and intake dates in writing. Admission is decided by the university.
